Comment	Acted on?
Simplicity is nice, few more filtering options would be nice, comments and liking is nice, would like different colors for webpage	Y
Filters should apply automatically	Y
Missing: most popular, most liked, groups	Y
"Mac Scrolling was not as quick as a mouse"	N
Division, Unit, and PDCA missing	Y
"Kinda confused at first by the blinking type prompt thing.... you got it"	N
"For Troubleshooting if one access point breaks"	N
Missing: edit / delete	Y
Downvote	N
What does this affect, who does it involve	Y
A more direct way of seeing the areas in which an idea would effect	Y
"Great Job"	N
"For the create an idea from anywhere on the page state it on the page somewhere, other than that the general flow of the site was great, good job"	N
Additonal Metrics was indicated as they wanted more but did not comment on what they wanted	N
"I just didnt think to click for more"	N
When creating a new user, if password is incorrect, user name resets but email does not	Y
Apply Automatically, Add "Most Popular, Most Liked, Groups, PDCA"	Y
Revisit the Blinking Homepage Prompt	N
Edit/Delete/Downvote	Y
Who would this affect?	Y
When creating new user, password incorrect should reset whole form or none except password	Y
Make it more obvious?	Y
