Idea submitter & Manager will have additional buttons to mark as Completed or Abandoned.

Completed & Abandoned ideas will not be editable.

For Abandoned, click a button which results in a pop-up text window to enter the reason.

Expanded View.

Any user from the team can enter priority to voice how important the idea is (gives some amount of participation points -- one time only).

Any user can add an ammendment to the solution if they see a problem or improvement (gives some amount of participation points -- 1 chunk of points per ammendment).

Each time an idea passes a PDCA phase, award the idea submitter some idea points.

Save Draft

Submit

Tag other teams if applicable.

TODO: Add a way to create a new idea and reference an old one via tracking number. Usefull if amendments become too many.

TODO: Add a way to update PDCA progress bar.

Drafts sorted to the bottom.

Add new blank idea to fill out.

Drafts will have a different colour background than submitted ideas (e.g. draft = grey, submitted = white).

Once an idea is marked Submitted the Save Draft button will dissapear. Problem Descr. & Solution Plan will no longer be editable, user will be prompted with a pop-up window saying "are you sure you wish to submit" etc. when the Submit button is pressed.

After Submit is pressed the idea card will take the form of the My Team page ideas (with amendments etc.). Idea submitter can add amendments, but will not be awarded participation points for amendments since they will be collecting idea points from the idea itself.

Award some participation points for submitting the idea (more points than an amendment).
